Defining India and Abroad Admissions

INDIA COUNSELLING SUPPORT

Complete guidance for NEET counselling in India.

1

Rank & Eligibility Analysis

We evaluate your NEET rank, category, and eligibility to define the best counselling pathway.

2

College Shortlisting

We shortlist the best-fit colleges based on your rank, preferences, location and future goals.

3

Choice Filling Strategy

Our experts create a smart and safe choice filling strategy to maximize your seat allotment chances.

4

Documentation & Verification

We guide you through document preparation, upload, and verification to avoid any rejection.

5

Reporting & Admission Support

From seat allotment to reporting at the college, we support you at every step until admission.

Our counselling support covers **MBBS, BDS** and **AYUSH** admissions across India.

We Guide You Across All Counselling Paths

MCC / All India Quota

Complete support for 15% All India Quota counselling through MCC.

State Counselling

Expert guidance for state quota counselling in your respective state.

Deemed Universities

Admission assistance for deemed universities under deemed quota.

Management / NRI Guidance

Personalized support for management quota and NRI quota admissions.

Expert Counselors

Timely Updates

Transparent Process

MAP MY MBBS

Defining India and Abroad Admissions

NEET 2026 TEST ANALYSIS

Subject-wise difficulty review and expected cut-off trend

Biology

Biology was comparable to last year. Overall difficulty remained similar, with a familiar pattern for most students.

Chemistry

Chemistry was very easy and was totally NCERT-oriented. Students with strong NCERT preparation are expected to have performed well.

Physics

Physics was easier than last year. Compared with the previous exam, students found the paper more manageable.

Expected Cut-Off Trend

Because Chemistry was very easy and Physics was easier than last year, the overall cut-off is expected to move upward by approximately

7% to 10%.

Overall takeaway: NEET 2026 appears easier than last year, especially in Chemistry and Physics, which may push cut-offs higher.
